Portfolio

Professional Profile

IT graduate with an interest in Business Analysis, requirements engineering and business process improvement. Experienced in academic software projects involving web applications, databases and collaborative development. Familiar with translating application needs into functional workflows, understanding user requirements and documenting system behaviour. Knowledge of software development life cycles, Agile concepts, Jira, SQL and Git/GitHub. Analytical, detail-oriented and eager to support stakeholders in identifying business needs and delivering effective technology solutions.

Core Competencies

Business Analysis	Requirements understanding, problem identification, business needs analysis and process improvement
Requirements Documentation	Functional requirements, user stories, acceptance criteria, use cases and business rules
Process Analysis	User workflows, as-is/to-be process analysis and process flow documentation
Agile Practices	Product backlog concepts, task tracking, sprint workflows and collaboration
Data Analysis	SQL fundamentals, database validation and structured data interpretation
Communication	Analytical thinking, teamwork, documentation, problem-solving and stakeholder communication

Technical Skills

Business Analysis Tools	Power BI, Jira, Trello, Confluence, documentation tools, Lucidchart, diagrams and workflow modelling
Data and Databases	SQL, SQLite, MongoDB
Programming	Python, Java, C, JavaScript, PHP
Web Technologies	HTML, CSS, JavaScript, React
Development Tools	Git, GitHub, VS Code
Methodologies	Software Development Life Cycle (SDLC), Agile fundamentals, requirements analysis

Education

BSc. (Hons) Information Systems — **Jul 2024 – Present**
Sabaragamuwa University of Sri Lanka — *Sri Lanka*

BSc. Information and Communication Technology (Hons) — **2020 – 2025**
Asia e University (AeU) — *Malaysia*

G.C.E. Advanced Level – Mathematics Stream — **2009-2022**
Dharmaraja College — *Kandy, Sri Lanka*

Project Experience

E-Commerce Business Performance Analytics — *Business Intelligence & Business Analysis Project*

Technologies: Microsoft Power BI, DAX, Power Query, Microsoft Excel

- Analysed e-commerce business performance to identify sales trends, profitability, product performance and customer purchasing behaviour.
- Defined business analysis requirements and translated business objectives into measurable KPIs and analytical reporting needs.
- Worked on Business Analysis documentation, including stakeholder analysis, business requirements, user stories, acceptance criteria and test cases.
- Focused on identifying business insights and preparing data-driven recommendations to support stakeholder decision-making.

GitHub: E-Commerce Business Performance Analytics

Inventory & Supply Chain Management Analytics *Business Analysis Project*

Technologies: Power BI, DAX, Power Query, Excel

- Analyzing retail inventory and supply chain data to identify stock shortages, excess inventory and supplier delivery challenges.
- Defining business KPIs including inventory turnover, stockout rates, holding costs and supplier lead times.
- Designing Power BI dashboards for inventory monitoring, product movement analysis and procurement decision support.
- Developing data-driven recommendations for inventory replenishment and operational improvements.

GitHub: Inventory Supply Chain Analytics

Business Analysis Knowledge

- **Requirements Analysis:** Understanding business needs and identifying expected system functionality.
- **User Stories:** Understanding how to describe features from a user's perspective and define acceptance criteria.
- **Process Modelling:** Understanding user workflows and documenting business processes.
- **Use Case Modelling:** Identifying system actors, their goals and interactions with application features.
- **Agile and SDLC:** Familiarity with iterative development, team collaboration and software delivery.
- **Data Analysis:** Using SQL fundamentals to understand records, retrieve information and validate data.
- **Documentation:** Organising project information and communicating system functionality clearly.

Certifications

- **Python Programming** – CODL, Department of Computer Science and Engineering, University of Moratuwa.
- **Agile and IT Project Management** – CODL, Department of Computer Science and Engineering, University of Moratuwa.

Additional Courses

Sri Lanka Computer Competency License Course (SLCCL)

Extracurricular Activities

Member, Society of Computer Science **2024 – Present**
Sabaragamuwa University of Sri Lanka *Sri Lanka*

Member, IEEE Computer Society Chapter **2024 – Present**
Sabaragamuwa University of Sri Lanka *Sri Lanka*

President, ICT Society **2022**
Dharmaraja College *Kandy, Sri Lanka*

Interests

Business Analysis, Requirements Engineering, Business Process Improvement, Data-Driven Decision-Making and Digital Transformation

Languages

Sinhala: Native
English: Fluent
